Historic compound located in the iconic hamlet of Bearsville, just minutes from the Village of Woodstock. This four residence compound dates back to the mid-1700's and is believed to be the first farm in the valley as well as one of the first homes. Sprawled over 25+ acres with a pond and meandering stream, this unique property tucked away with complete privacy. The four structures include a 3+ bedroom farmhouse, a lovingly restored converted barn which includes 2 bedrooms and a full-level artist studio, a former duplex (currently used as a single-family home) as well as a one level home with 2 bedrooms and a detached garage. Unlike many historic homes, the main house is flooded with natural light, vaulted ceilings and open rooms. The adjacent multi-functional converted barn offers endless possibilities from studio, entertainment or additional living quarters. It also includes a large unfinished area, (currently used as storage) that expands on these possibilities. The remaining structures offer the potential for family, guest or maintenance housing. There is also a barn and multi-bay garage. Truly a property like no other offered for the first time in over 30 years. Additional Information: Amenities:Storage,
