Year Built:	1987

It's not just about the view! Don't get me wrong, the views are amazing, and from almost every room. Certainly amongst the best views in Woodstock. But this three level designer inspired contemporary has so much more to offer! Located high on the flanks of Overlook Mountain in a private community setting, each space has been carefully reimagined. The sleek, modern kitchen with all new appliances and a downdraft induction cooktop is open to the living and dining areas. There is a fab freestanding stucco fireplace and new mini split heating and cooling. Each bathroom has a different design concept with radiant heated tile floors. The comfortable upper level bedroom suite has high ceilings, lots of light and, well, insane views. The lower level suite could be a bedroom, gym, office or family room. There is a two car garage space, sauna, generator and even a dumbwaiter! This home is easy to view, but no drive by's please without an appointment as the road is private.
