****Old World Soul Meets Modern Comfort – Hilltop Charm with Endless Possibilities**** Perched proudly atop a hill, this 3-bedroom, 2-bath beauty is a rare find—where vintage charm meets practical updates, and every space tells a story. From the timeless Dutch door to the coffered ceilings and picture windows, this home offers character in spades with all the right modern touches. Step into the warm, inviting living spaces, where original woodwork, tall baseboards, and glowing hardwood floors create a cozy, elegant vibe. The spacious living room frames stunning seasonal views through oversized windows, bringing the outdoors in. The kitchen and entryway feature ceramic tile floors designed to replicate classic bluestone, blending perfectly with the home's old-world feel. But don't let the vintage look fool you—this home's got modern bones. A newer roof (just 2 years old), updated furnace, water heater, and ****double water tanks**** (hello, bulk savings!) bring peace of mind and efficiency. Even better? The walls and attic have been blown with insulation to keep things comfortable and energy costs down. The ****screened-in porch**** is your go-to spot for relaxing evenings, offering the perfect place to unwind in the fresh air without the bugs. Outside, the property continues to deliver. A ****detached one-car garage with a loft**** is just waiting to become your next art studio, office, or even a jam room. There's also a ****two-car garage/carriage house**** set on a stone foundation—it needs a little TLC but has incredible potential for more usable space. The multilevel yard is filled with beautiful old trees, violets, and classic outbuildings like a former chicken coop, giving you that perfect blend of charm and functionality. The circular driveway and ample parking make life easy, while the peaceful hilltop setting offers privacy and panoramic views. Lovingly maintained with a mix of history and smart updates, this home is anything but ordinary. It's a true original—just like you.
