Calling All Investors and Families! An exceptional opportunity awaits at Gopal Farm. This spacious single-family residence with accessory apartments features 5 bedrooms and 4 bathrooms, set against the backdrop of 39 acres of pristine organic farmland—offering the farm lifestyle without the responsibility of operating it. The property is currently in the process of being subdivided and will include 3–4 acres surrounding the home with 39 acres still owned and operated by Gopal. With two large apartments and an additional studio on the lower level, the rental income potential exceeds \$4,000 per month. Previously occupied by farm staff, these units are now vacant and ready to be leased at market value. While the home requires some updating, it presents tremendous versatility and investment potential—whether for multi-generational living, rental income, or a combination of both. The full farm is not currently for sale, though future discussions may be possible with the right offer.
