Million-Dollar Views as Far as the Eye Can See Perched privately on 5.1 acres with breathtaking 100-mile panoramic views, this extraordinary log home is a true architectural masterpiece. Constructed from massive 18 to 20 inch in diameter logs that required cranes for assembly and individually placed upon an expertly engineered foundation, this remarkable residence represents a level of craftsmanship that would be difficult to replicate today. Blending timeless rustic charm with contemporary comfort, the home welcomes you into a spectacular great room featuring soaring cathedral ceilings, a dramatic floor-to-ceiling stone fireplace, and an expansive wall of glass that frames the stunning landscape beyond. Two sets of French doors open onto a spacious deck, creating seamless indoor-outdoor living. Rich hardwood floors add warmth and elegance throughout the main living spaces. The chef's kitchen and adjoining dining area are designed for both everyday living and entertaining. The spacious primary suite easily accommodates a king-sized bedroom set and offers a luxurious en-suite bath complete with a Jacuzzi tub, separate glass-enclosed tiled shower, and an oversized walk-in closet accessible from both the bedroom and bath. Above the great room, a versatile loft overlooks the living area and captures the spectacular views through the home's expansive windows. Ideal as a den, library, office, or additional sleeping space, this flexible area adds to the home's appeal. On the east wing, two additional bedrooms and a full bath feature a separate entrance, creating the potential for guest quarters, an in-law suite, or a private apartment. There is possibility also of a loft area, currently attic space. The lower level offers tremendous expansion possibilities. An easily finished family room features attractive stone accents and a smooth concrete floor ready for finishing. An additional above-grade room measuring approximately 27.5' x 21' provides endless options for a game room, recreation area, fitness space, or conversion into multiple additional rooms. Together, these lower-level areas offer approximately 918 square feet of potential living space beyond the home's existing 2,322 finished square feet. Outside, the property's expansive level field provides endless opportunities for recreation and enjoyment. Whether practicing golf shots, installing a tennis court, creating a resort-style pool, or simply enjoying the open green space, the possibilities are limitless.
