HIGHEST & BEST OFFERS DUE WED 7/29 No boring beige box here - Chroma Modern is a contemporary build with impeccable vibes. Besides next-to-new features, this home affords residents ample space, both inside and out. Perched on a grassy knoll tucked behind a canopy of mature trees - the home extends three levels, with two covered porches that span the rear of the structure. The lower-level walks out to a landscaped entertaining zone, with wood deck encircling a hot tub, while a gravel patio accommodates the firepit and dining area. Just five years young, this home was built to high efficiency standards, with privacy and recreation in mind. And located halfway between Woodstock and Saugerties village centers, Chroma Modern offers homeowners both modern comforts and convenient access. From the ample parking pad out front, enter the main level of the home through the chartreuse-colored front door, and drop your shoes and bags at the built-in entry nook. Down the hall are two bedrooms, each with closets and two windows, that share the full bath on this level. The open-flow format of the living space on this floor offers generous sitting, kitchen, and dining spaces - with glass sliders connecting to both front and back decks. The rear set of sliders include two adjacent glass doors for extra light and views of the verdant rear yard, providing dramatic golden hues especially at magic hour. The rear sliders also open out to a full-length roofed porch, extending the living space another 384sf on this level. Ascend the floating wood block stairs to the upper floor for two more bedrooms, both generously sized. To the right is the en suite primary, which includes a full bath with double sinks and a stall shower, as well as a roomy walk-in closet. To the left is the secondary bedroom, with three exposures, and enough space for relaxing, WFH, and hobbies. This level also includes a third full bathroom with two sinks and a full-size walk-in shower. Continuing down to the bottom floor of the residence, this partially-finished level offers an additional 1,300sf of flexible space for storage, hobbies, gym, office, or other uses. This level currently features concrete floors, two sets of french doors, insulated and sheetrocked walls, electrical outlets and lighting, and a mechanical room. Outside, the upper part of the 4 acre lot offers flat open lawn with young fruit trees (including peach, cherry, and pear), which is partially fenced for privacy. And where the lower lawn meets woods, a small stream travels past, before meeting with the larger Plattekill Creek across the road Set into a wooded landscape, with privacy from neighbors and space for recreation or expansion - yet less than a 10 min drive to the town centers of Woodstock, Saugerties, and Kingston - this location couldn't be more ideal. Come see this vibrant home for yourself!
