There is something undeniably special about this sweet Mid-Century Cape Cod home in Uptown Kingston. With three bedrooms - including one on the first floor, plus a convenient first-floor office/den, the flexible layout can easily function as a four-bedroom home if desired. The kitchen has a spacious, practical layout with a wonderful oversized window that catches the breeze just right, bringing a calming sense of peace to the heart of the home. A charming back porch overlooks the deep, privacy-fenced yard--perfect for gardening, relaxing, and playing. Much of the heavy lifting was completed in 2020, including new mini-split systems, a Navien on-demand water heater, and an updated 200 amp electrical panel. The roof is less than 10 years old, and the windows and siding have also been updated. Additional features include a detached garage and a large basement offering plenty of storage or room for expanding usable space. With great bones, important improvements already complete, and a location close to everything Uptown Kingston has to offer, this solid and inviting home is ready for its next chapter. Simply move in and make it your own.
