| Square Footage: | 2,330         |
| Year Built:     | 2005          |

If you are looking for an amazing, one of a kind home, than this home is definitely it! This is a Geodome, and was custom built in 2005 on an amazing piece of property. This home sits in Complete privacy, but yet is only minutes to everything. It features over 2300 finished sq. ft plus a 3rd floor, window filled, loft/art studio. Plus a 1200 sq. ft. unfinished basement with 9 foot high ceilings and french doors that lead to the backyard. This space is just waiting to be an incredible future family room, mother/daughter set up, or whatever else you may need. The entire exterior structure has just been completely sealed and painted, needing no maintenance for the next 20 years. Lots of hardwood floors, lots of skylights. An incredible open floor plan with the breakfast bar open to the livingroom. The home owner recently purchased this home and was going to renovate it with top end finishes throughout. But unfortunately his plans had to change. His loss is your gain. The home only requires some sheetrock and joint compound wall repairs, which the homeowner is willing to negotiate, or possibly complete the work with an acceptable offer. If your looking for a home that will amaze everyone and sits in complete privacy but yet is only minutes away from everything, you have found it!
